Type of Certificate of Origin

Certificate of Origin (CO) is a document to prove the origin of a product. There are two (2) types of Certificate of Origin (CO).

Preferential Certificate of Origin (PCO) issued by MITI based on the requirements under the FTAs to exporters for their importers to enjoy tariff concession

Non-Preferential Certificate of Origin (NPCO) issued by MITI's appointed Chambers of Commerce / Trade Association to exporters for export to non-FTA member countries. The NPCO will only serve as a proof of origin, but no tariff concession will be enjoyed by the importers.
